

The Vermont Marble Trail

Objective:

Students will learn where and how Vermont marble has been quarried and utilized.

Grade Level: 3-8

Materials:

Cards

Directions:

1. Read the back of Card 1 to the whole class.
2. Pass out the rest of the cards to individual students or groups of students.
3. Direct the students to read the back of their card and find the town or towns on the Vermont map that their card talks about.
4. After everyone has found their towns on the map, the students take turn reading their cards and showing the pictures on the cards to the rest of class.
5. Conclude the lesson by asking the students to summarize what they have learned.
